# A. K. Engineering Works

<http://www.diamondcuttingmachines.com/>

Appreciated as a reliable manufacturer and supplier, we are engaged in offering Jewellery Making Machine. Offered machines are used for designing of chains, bangles, ring, balls, beads, strips, pendants, medals and buttons & watch dials.

## Profile

Appreciated, known, valued and appreciated among its patrons across the nation for the purpose of manufacturing and supplying the best in class of Jewellery Making Machine, **A. K. Engineering Works** was established in the year **2006**. The product range offered by us consists of Chain Diamond Cutting Machines, Bangle-Ring Faceting Machines and Chain Hammering Machines. Offered machines are used for designing of chains, bangles, ring, balls, beads, strips, pendants, medals and buttons & watch dials. For manufacturing the offered Faceting Machines as per the industry laid norms, our engineers and support staff make use of quality assured materials and cutting-edge machinery. The offered faceting machines are known for their optimum performance, better energy efficiency, longer serving life and compact design.

We follow total quality management, customer centric approach and ethical business policies, in a zest to attain maximum customer approval. The technical know-how and extensive experience blends with productive efficiency to meet the ever changing market needs. Customized solutions of the offered faceting machines are offered, keeping the ease of our patrons. The offered faceting machines find wide applications in various jewelry making machines.

We were established as a proprietorship firm and are currently operating under the leadership of our proprietor, **Mr. Chirag Kharote**. Owing to his more than 35 years of experience in precision mechanical engineering and automation, we have been able to meet the precise needs of our patrons in the most efficient manner.
